Average Daily Balance. If you have a home equity Line of Credit account, the "average daily balance" of your account (including current transactions) can be used to figure the finance charge. To get the "average daily balance" we take the beginning balance of your account each day, add any new advances, and subtract any payments or credits, unpaid finance charges, other charges, and credit insurance premiums. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance." If the periodic rate shown on the front of this statement is expressed as a daily periodic rate, the finance charge can be determined by multiplying the average daily balance by the monthly periodic rate is shown, the finance charge can be determined by multiplying the average daily balance by the monthly periodic rate.

If you have an M&T CHOICEquity Line of Credit account or if one or more Tiers are in effect, the "average daily balance" (including current transactions) for each part of your account can be used to figure the finance charge due to the application of the periodic rate for that part of the account. The average daily balance for each part of the account is determined in the same way that it is for the home equity Line of Credit accounts. If the periodic rate shown on the front is a daily periodic rate, the average daily balance for each part of the account can then be multiplied by the number of days in the billing cycle, and the daily periodic rate for each part of the account applied to that amount to determine the finance charge due to the application of the periodic rate for that part. If the periodic rate is expressed as a monthly periodic rate, the average daily balance for each part of the account can be multiplied by the monthly periodic rate for that part to determine the finance charge due to the application of the periodic rate for that part. In either case (using a daily periodic rate or a monthly periodic rate), once the finance charges for each part of the account are determined in this fashion, then they can be added together to determine the finance charge due to the application of the periodic rate for the entire account.

The Finance Charge begins to accrue on the day each loan is posted to this Account. There is no time during which credit is extended that you do not incur a Finance Charge.

A minus sign (-) indicates a credit or credit balance.

M&T Bank retains a security interest in your real property.
